

Critical Information Summary: Ethernet in the First Mile Internet

Information About The Service

Ethernet in the First Mile Internet a Broadband Internet Service.

Bundling Requirements

We do not require that you bundle this service with any other service.

Minimum Term

Minimum commitment term is 24 months.

Availability and Qualification

Ethernet in the First Mile Internet is not available everywhere. Availability depends on a number of factors including whether the necessary equipment is available at the relevant exchange, the length of the cable to the nearest exchange and the quality of the existing copper pairs that the service runs over.

You need available copper lines in order to get Ethernet in the First Mile Internet, but the line must not be active and in use as a PSTN telephone service. In some cases you may not have enough copper lines at your location for the service to work

What's Included and Excluded

Your Ethernet in the First Mile Internet service includes:

- **Static IP Address**

You receive an **Unlimited Data Allowance** each month. There are no peak or off peak restrictions on your use and no excess usage charges.

Ethernet Speeds

- Actual speeds you will receive will vary due to a number of factors such as your distance from the exchange, the network connecting the exchange, your equipment, software and internet traffic.
- Download speeds on devices connected via a Wi-Fi modem or network extender may be slower than on devices connected by a fixed Ethernet cable.

Equipment

You may use your own router provided it is compatible with our service, however this means that you will be responsible for the configuration and management of the router. Ask us for information on approved routers. Alternatively

you may purchase your router from us. If you do purchase a router from us we will support, monitor and manage the router on your behalf. We recommend Cisco 881 routers which are **\$660** each.
