

Critical Information Summary: Ethernet in the First Mile WAN

Information About The Service

Ethernet in the First Mile WAN or “EFM” is a symmetrical access technology (as opposed to ADSL which is asymmetrical), specifically designed for businesses that require a simple, value for money style of access technology.

Bundling Requirements

We do not require that you bundle this service with any other service.

Minimum Term

Minimum commitment term is 24 months.

Availability and Qualification

Ethernet in the First Mile Internet is available for businesses located in metropolitan areas of Brisbane, Melbourne, Sydney, Adelaide, Canberra and Perth, as well as many regional centres.

Availability depends on a number of factors including whether the necessary equipment is available at the relevant exchange, the length of the cable to the nearest telephone exchange and the quality of the existing copper pairs that the service runs over.

You need available copper lines in order to get SHDSL, but the line must not be active and in use as a PSTN telephone service. In some cases you may not have enough copper lines at your location for the service to work

What’s Included and Excluded

Your Ethernet in the First Mile WAN service includes:

- **Static IP Address**

You receive an **Unlimited Data** Allowance each month. There are no peak or off peak restrictions on your use and no excess usage charges.

This product does not come with internet access however all traffic between AAPT eLine WAN sites is unlimited. A separate connection is required for internet access.

Ethernet Speeds

- Actual speeds you will receive will vary due to a number of factors such as your distance from the exchange, the network connecting the exchange, your equipment, software and internet traffic.

- Download speeds on devices connected via a Wi-Fi modem or network extender may be slower than on devices connected by a fixed Ethernet cable.

Equipment

You may use your own router provided it is compatible with our service, however this means that you will be responsible for the configuration and management of the router. Ask us for information on approved routers. Alternatively you may purchase your router from us. If you do purchase a router from us we will support, monitor and manage the router on your behalf. We recommend Cisco 881 routers which are **\$660** each.

Information About Pricing

Minimum monthly charge

The monthly charge depends on the zone your service is located in, which is determined by Telstra. It also depends on the access speed you choose:

Access Speed	Charges
1Mb/1Mb (2 Wire)	\$259
10Mb/10Mb (4 Wire)	\$359
10Mb/10Mb (6 Wire)	\$599
10Mb/10Mb (8 Wire)	\$699
20Mb/20Mb (8 wire)	\$799

Total minimum cost

The total minimum amount that you will pay for the length of your 24 month contract depends on the plan that you choose:

Access Speed	Charges
1Mb/1Mb (2 Wire)	\$6,216
10Mb/10Mb (4 Wire)	\$8,616
10Mb/10Mb (6 Wire)	\$14,376
10Mb/10Mb (8 Wire)	\$16,776
20Mb/20Mb (8 wire)	\$19,176

Maximum monthly charge

Your maximum monthly charge is equal to the minimum monthly charges for this plan, unless you purchase additional data during the month.

Installation Charge

There is an installation charge of **\$699** for all speeds. This is a one off charge.

Early Termination Charge (ETC)

If you choose to cancel your service or it is disconnected for any reason within the 24 month contract term you will be charged an early termination fee (ETF) comprised of your minimum

Critical Information Summary: Ethernet in the First Mile WAN

monthly commitment, multiplied by the months remaining in your contract. You must provide 30 days' notice to us to disconnect a service.

If one of our suppliers raises its prices in the future, this may result in the cost of your service increasing.

Billing

Your service is invoiced on the same date each month (e.g. 15th of every month). We bill you in advance for the minimum monthly charge and in arrears for any excess Data not included in the minimum monthly charge. Your first invoice will be higher than \$79.95 because it will include a partial Monthly Fee billed in arrears (for the period between your service activation and your first invoice) plus the Plan Fee for the following month billed in advance.
